

STABLE LIFE

...where abilities unite

Stable Life

IN GOD'S HANDS...

CURRENT NEEDS:

- Monthly financial support
- Looking for 15-20 acres of land to expand
- Financial support with equine medications, feed, hay, etc.

Welcome to the Autumn season! We are looking forward to the cooler weather and the upcoming holidays. Before we jumpstart this exciting time, let's reminisce on what God did throughout the summer months.

StableFit: StableFit has been running at a consistent pace for the past few months. Coach Ken runs approximately 5-6 classes per day.

Equine Facilities: Until next year, we have shut the equine program down. Kelly is having elbow surgery in the next few months and then back surgery in December. We are praying for her healing that will enable us to reopen the equine program.

Respite: We continue to provide respite care for families. We are also providing transportation for

several of our clients. We currently work with 8 respite clients.

Vision: As explained in our previous newsletter, we are seriously pursuing next steps for Stable Life. We do not know exactly what this means, and we are calling on the Lord for clarity. We ask that you join us in this prayer.

There are not many updates to give. We are enjoying our day-to-day with our respite friends, animals, and gym clients!
